

NEW *Classic and Designer Series*
Full-Size Refrigeration

REIMAGINED AND FULL OF FRESH IDEAS

NEW

CLASSIC SERIES

Classic Series Refrigeration's iconic grille has served as an irrefutable badge of Sub-Zero's quality for more than six decades. While this distinct symbol of its predecessor's pioneering performance remains, the completely redesigned Classic Series—with its fresh suite of innovative features—reaches new levels of refinement both inside and out.

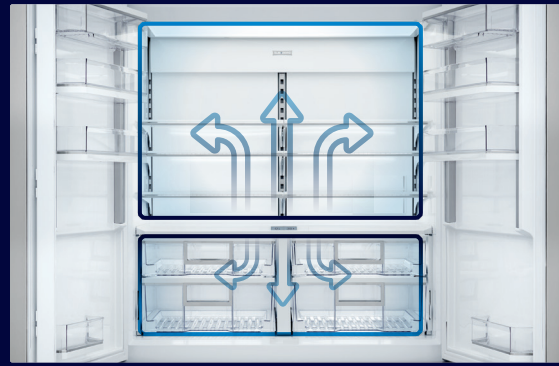

NEW

DESIGNER SERIES

Dubbed as the “disappearing refrigerator” when first introduced, the newly reimagined Sub-Zero Designer Series Refrigeration is just as seamless and subtle as before. Now, however, its sophisticated aesthetic rivals only that of its performance. Hidden behind fully integrated panels, you will find a mesmerizing collection of features that make owning a Sub-Zero more rewarding than ever.

122 cm Classic Series French Door

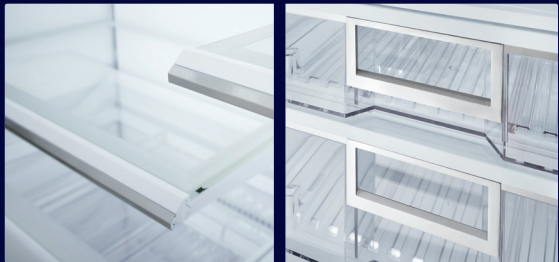

NEW SPLIT CLIMATE™ INTELLIGENT COOLING SYSTEM

Split Climate™ intelligent cooling system revolutionizes Sub-Zero's already-superior preservation capabilities, keeping food even fresher for longer thanks to a variable-speed compressor and two fans that consistently optimize the refrigerator temperature within 1 degree of set point.

NEW TOUCH CONTROL PANEL

Easily customize settings—from lighting to humidity—with the tap via the conveniently accessible touch control panel.

NEW STAINLESS ACCENTS

Sleek stainless accents trim the interior, matching the sophistication of the exterior.

NEW TO CLASSIC NANO-COATED GLASS

Beloved in the Designer Series, nano-coated glass shelves—and their hydrophobic, spill-containing properties—can now be found in Classic Series.

NEW CLEARSIGHT™ LED LIGHTING

Even when brimming with food, ClearSight™ LED lighting scheme fully illuminates the interior and reduces shadows, adding light where it's needed most—overhead, under each shelf, and in each crisper drawer.

NEW NIGHT MODE

Night Mode optimizes the interior lighting based on the detected ambient light, reducing the brightness by 90% in dim environments.

NEW FLIP-UP DAIRY COMPARTMENT

Lift the base of the flip-up dairy compartment to store taller items on the shelf below.

NEW AIR PURIFICATION

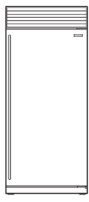

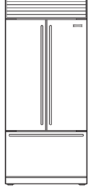

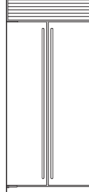

Now easily accessible thanks to a sliding door, the NASA-inspired air purification system scrubs the air of ethylene and odor every 20 minutes.

Timeless designs.
Fresh features.

ADDITIONAL FEATURES

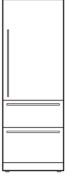

Adjustable Door Shelves Product Pairing
Freshness Cards Industry-Leading Warranty
Magnetic Door Sealing
